¹ A small amount of natural gas used for air conditioning is included in "Natural Gas" under "Total."

² Includes refrigerators. A small amount of fuel oil or kerosene used for appliances is included in "Fuel Oil" under "Total."

³ Site electricity. One kilowatthour = 3,412 Btu.

⁴ Fuel oil is distillate fuel oil and kerosene.

⁵ Liquefied petroleum gases.

⁶ Nominal dollars.

Notes: • No data are available for years not shown. Consumption data by energy source for 1979 are available on Table 2.4. • Totals may not equal sum of components due to independent rounding.
